

Create your own carnivalfish

What you will need:

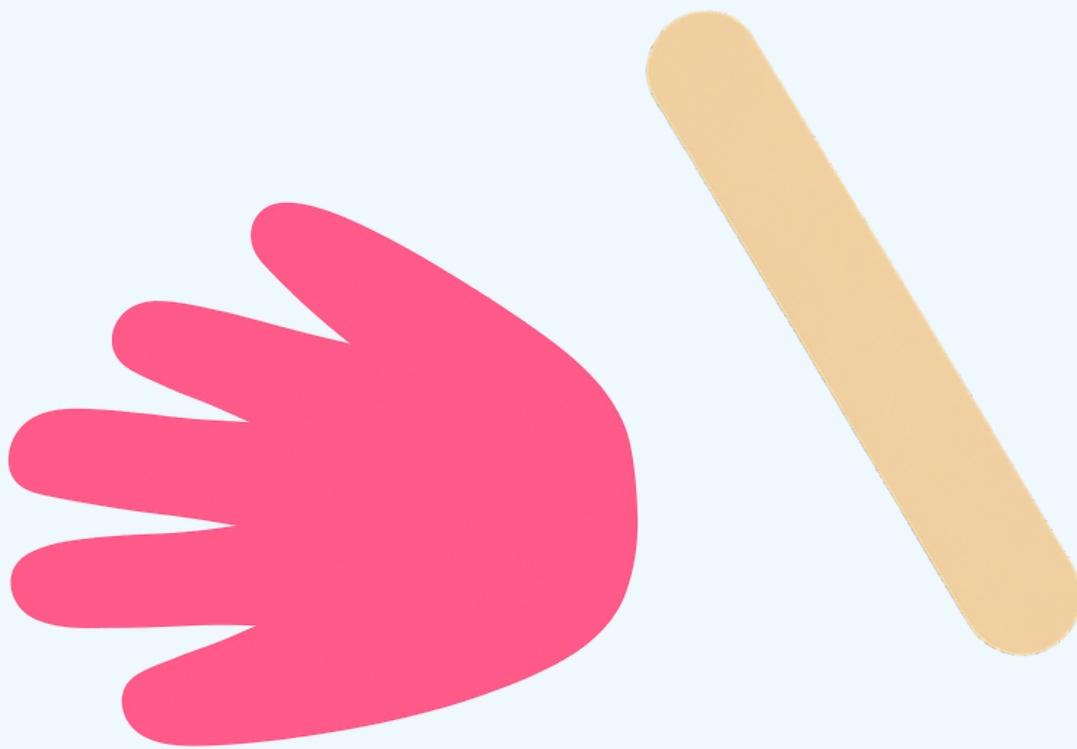

- A stick
- Different coloured carboards
- A pen
- Scissors
- Decorations

**BALTIC SEA
DAY** 

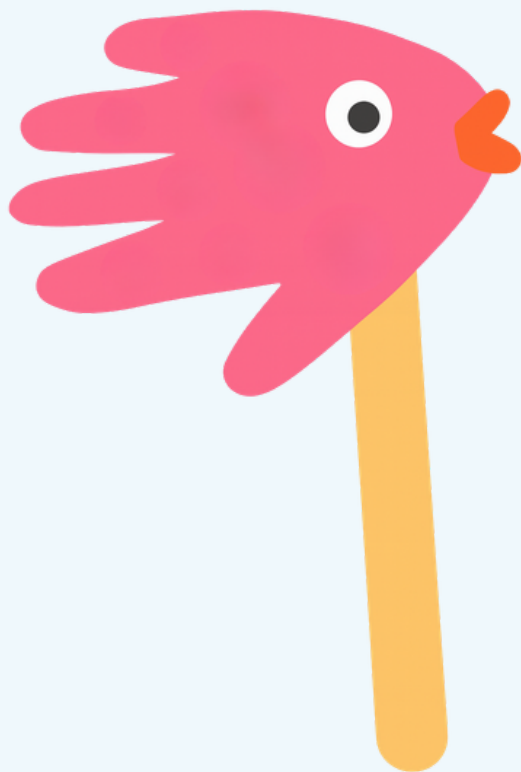

Step 1

- Put your hand on the cardboard and draw the outline
- Cut along the lines
- Glue the fish onto the stick

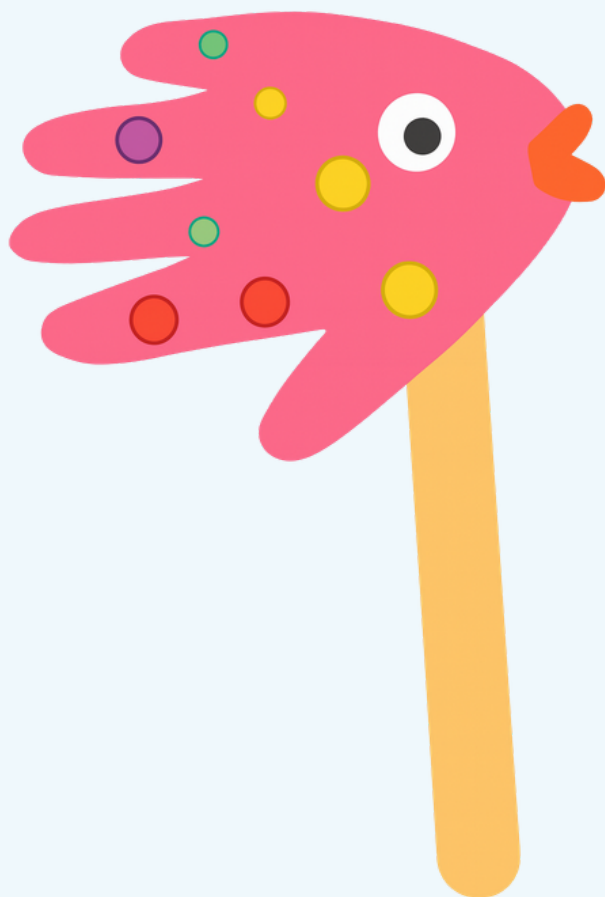

Step 2

- Make eyes and mouth to your fish from cardboard. Remember, carnivalfishes can have hearts or diamonds as their eyes!
- Glue the mouth and the eyes onto the fish.

Step 3

- Cut decorations from cardboard or use other materials.
 - For example old buttons or spangles.
- Glue the decorations onto the fish.

WOW!
Look at that
carnivalfish!

More tips!

- Consider using recycled materials:
 - For cardboard you can use an old juice carton. If the carton has foil inside then your herring is already ready.
 - Your stick can be an popsicle stick or a stick from the woods.
